Summary

Dear All
Good day.

Please regard this letter as an introduction for your consideration.
I am interested in exploring employment opportunities with your organisation on a permanent or contractual basis. Please kindly note that I am Ukrainian in Tralee, Ireland and have a permit to work, do not require any sponsorship.

I have always had a keen interest in technology and how the world of technology works. My attention to detail and inquisitive nature have lent itself to immersing myself in a Diploma in Full Stack Software Development with Code Institute.

Over the last 7 months, I have acquired formal training in HTML, CSS, JavaScript and Python. I have built 5 portfolio projects utilizing my skills, with my final project being a fully functioning eCommerce site for a local business. You can view my projects here on my GitHub:

In addition to this, I have a Bachelor's Degree. Over the course in Code Institute on a full-time basis at Kerry College over the last 7 months had every day from Monday to Friday daily stand up at 09:00 am and 04:00 pm as a team discussed our projects.

Please provide information concerning possible employment opportunities with your organisation. I wish to thank you for taking the time to review my application and I look forward to the opportunity to discuss my qualifications with you.

Your Sincerely,
Sergiy Kochenko
